**Introducing the Mobility Benchmarking Assistant**

Your ultimate tool for optimizing global  
mobility policy framework strategies

welcome to brighter

## Why use the Mobility Benchmarking Assistant?

Did you know that Mercer offers a comprehensive range of mobility surveys and benchmarking insights each year? With self-service options and participation schedules at your fingertips, engaging with insights and resources is simpler than ever. Meet the Mobility Benchmarking Assistant – your key to optimizing policies for a brighter future.

### Data-driven insights

Leverage comprehensive data to make informed decisions about your mobility programs. Our benchmarking assistant provides benchmarks that help you understand how your organization compares to industry standards.

### Tailored solutions

Customize your benchmarking experience to fit your unique organizational needs. Whether you're looking to enhance employee satisfaction or streamline costs, our tool adapts to your goals.

### Stay ahead of the curve

With real-time updates and insights, you can anticipate trends and adjust your strategies proactively, ensuring your organization remains competitive in the ever-evolving mobility landscape.

### User-friendly interface

Navigate through our intuitive platform with ease. Access key information quickly and efficiently, empowering your team to act decisively.

## Explore the key features

### Interactive dashboards

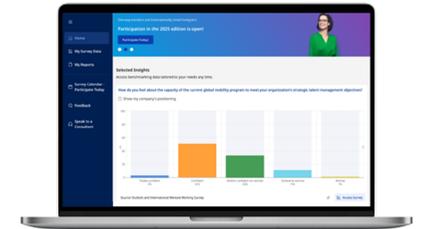

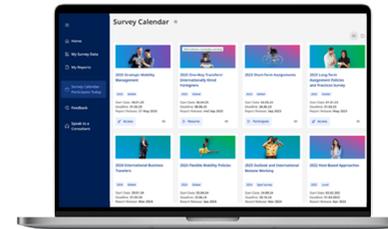

Visualize your data with interactive dashboards that make it easy to identify areas for improvement and track progress over time.

### Comprehensive benchmarking reports

Gain access to detailed reports that highlight key performance indicators and best practices in global mobility.

### Expert guidance

Benefit from our team of mobility experts who are ready to assist you in interpreting data and implementing effective strategies.

## Transform your mobility strategy today!

Access quality insights anytime, anywhere to manage your international talent. Mercer Mobility Benchmarking Assistant is here to help you make data-driven decisions, so you can design the strategy that works best for your company.
